

PRO-LEARNING CULTURE Write Score of 1-5 in Box: 1= strongly disagree 5= strongly agree	ANTI-LEARNING CULTURE Write Score of 1-5 in Box: 1= strongly disagree 5= strongly agree
<p>People at all levels ask questions and share stories about successes, failures, and what they have learned.</p> <p>Score: <input type="checkbox"/></p>	<p>Managers share information on a need-to-know basis. People keep secrets and don't describe how events really happened.</p> <p>Score: <input type="checkbox"/></p>
<p>Everyone creates, keeps, and propagates stories of colleagues who have improved their own processes.</p> <p>Score: <input type="checkbox"/></p>	<p>Everyone believes they know what to do, and they proceed on that assumption.</p> <p>Score: <input type="checkbox"/></p>
<p>People take time regularly to reflect on what has happened and what may happen.</p> <p>Score: <input type="checkbox"/></p>	<p>Little time or attention is given to understanding lessons learned from projects.</p> <p>Score: <input type="checkbox"/></p>
<p>People are treated as complex individuals.</p> <p>Score: <input type="checkbox"/></p>	<p>People are treated like objects or resources without attention to their individuality.</p> <p>Score: <input type="checkbox"/></p>
<p>Managers encourage continuous experimentation.</p> <p>Score: <input type="checkbox"/></p>	<p>Employees proceed with work only when they feel certain of the outcome.</p> <p>Score: <input type="checkbox"/></p>
<p>People are hired and promoted on the basis of their capacity for learning and adapting to new situations.</p> <p>Score: <input type="checkbox"/></p>	<p>People are hired and promoted on the basis of their technical expertise as demonstrated by credentials.</p> <p>Score: <input type="checkbox"/></p>
<p>Performance reviews include and pay attention to what people have learned.</p> <p>Score: <input type="checkbox"/></p>	<p>Performance reviews focus almost exclusively on what people have done.</p> <p>Score: <input type="checkbox"/></p>
<p>Senior managers participate in training programs designed for new or high-potential employees.</p>	<p>Senior managers only kick off management training programs, rarely facilitating conversations or courses.</p>

Score: <input type="checkbox"/>	Score: <input type="checkbox"/>
Senior managers are willing to explore their underlying values, assumptions, beliefs, and expectations. Score: <input type="checkbox"/>	Senior managers are defensive and unwilling to explore their underlying values, assumptions, beliefs, and expectations. Score: <input type="checkbox"/>
Conversations in management meetings constantly explore the values, assumptions, beliefs, and expectations underlying proposals and problems. Score: <input type="checkbox"/>	Conversations tend to move quickly to blaming and scapegoating with little attention to the process that led to a problem or how to avoid it in the future. Score: <input type="checkbox"/>
Customer feedback is solicited, actively examined, and included in the next operational or planning cycle. Score: <input type="checkbox"/>	Customer feedback is not solicited and is often ignored when it comes in over the transom. Score: <input type="checkbox"/>
Managers presume that energy comes in large part from learning and growing. Score: <input type="checkbox"/>	Managers presume that employee energy comes from corporate success and profits. Score: <input type="checkbox"/>
Managers think about their interest in and capacity for learning new things (their learning quotient), and the learning quotient of their employees. Score: <input type="checkbox"/>	Managers think that they personally know all they need to know and that their employees do not have the capacity to learn much more than they know. Score: <input type="checkbox"/>
